

SIEMENS

FLOW

Ultrasonic

Clamp-On External Meters; In-Line Wetted Meters;
Energy Metering

Magnetic

Flanged Design 1-48"; Flangeless Design 1/12-4"
3A Approved Units

Coriolis

Low Flow Mass Meters; Process Mass Meters 1/8—6"

LEVEL

Ultrasonic

Point Level; Continuous Level

Radar

Continuous Level for Harsh Process Conditions

Capacitance

Point Level; Continuous Level

WEIGHING

Belt Scales; Weigh Feeders; Dry Solids Flowmeters;
Process Protection

contrec

BTU and Steam Computers, Oil Flow Computers.

High accuracy positive displacement meters for chemicals and fuels

Low cost solutions to:
Flow, Level, Pressure, Sensors,
Switches, Temperature Applications,
Display Electronics

Vortex meters for liquid, gas and steam.
Insert and in-line

Commercial Toxic & Explosive Gas Detection
Specializing in Parking Garage, Boiler Room and
Refrigerant Monitoring Applications.

DISTRIBUTORS FOR

Industrial Hot/Cold Water Meters, Condensate Meters

Global Supplier of Charts, Pens, and Consumables

High Quality Chart Paper and Pens for most Chart Recorders /
Loggers & Circular Chart Recorders for Temp & RH

Pressure Gauges, Thermometers, Isolation Diaphragms,
Pressure Switches, Low Cost Pressure Transmitters

Process Displays, Alarms and Accessories

Turbine Meters.

SERVICE

PEMCO is dedicated to insuring successful application of all its products

- Equipment Start –Up
- Maintenance Contracts
- Repair
- Turn Key Installation
- Calibration

FLOW SURVEY

- We will provide equipment / manpower to diagnose & solve flow problems
- Flow / energy measurement to assist engineers in pump, cooling tower or chiller selection & sizing
- Diagnose billing errors

SYSTEMS

Design / Build Small Systems

- Data Collection / analysis
- Communication / Telemetry
- Level Control
- Energy measurement / Billing
- Flow Control
- Inventory management
